EXAM

Practice Exam # 1
Math 3351, Spring 2003
Feb.10, 2003

• Write all of your answers on separate sheets of paper. You can keep the exam questions when you leave. You may leave when finished.

• You must show enough work to justify your answers. Unless otherwise instructed, give exact answers, not approximations (e.g., $\sqrt{2}$, not 1.414).

• This exam has 14 problems. There are 695 points total.

Good luck!
