

Welcome to the Math Tutoring & Study Center!

The Tutoring & Study Center (TSC) was founded by the Department of Mathematics & Statistics as a place for math students of all levels to come for homework questions and focused math study.

We are located in Room 106, on the first floor of the Mathematics & Statistics Building.

The Tutoring & Study Center is open to all Texas Tech students enrolled in lower level mathematics and statistics courses. Students are encouraged to come in anytime the lab is open and find a tutor who can help!

The TSC is open

Monday – Friday

9:00am – 4:30pm

and is closed on University Holidays

The TSC offers a focused math study environment and math resources such as reference books and study materials. Students can also take advantage of any of the available computers for use in math-related activities. Students are welcome in the lab during all operating hours, no appointment necessary!

Just sign in, sit down, and raise a hand if you have any questions!

Our core tutoring staff is made up of talented undergraduates, students who made a B or better in the classes they tutor! Graduate students also tutor in the TSC and possess a wide range of skills from their specialty subject areas. Students are encouraged to ask for assistance from any of tutors on the floor. The tutors continually refer each other for specific questions.

For any questions contact: Rachel Harris (TSC coordinator, rachel.harris@ttu.edu)

We look forward to seeing you at the Tutoring & Study Center!
