The TEXAS TECH MATH CIRCLE mission is to increase the quality and quantity of students who become mathematics educators and researchers, or who simply love and use mathematics in their studies, work and daily activities. Our goal is to

- expose middle and high school students to exciting mathematics
- provide extracurricular opportunities to extend mathematical knowledge and skill well beyond the school curriculum
- create a math fostering and friendly atmosphere at the math circle

Organized by: Jeffrey M. Lee, Cezar Lupu, Hung Tran (TTU-faculty)
