

Math 1142. Spring 2008.

UNOFFICIAL MIDTERM EVALUATION

This is unofficial and aims to give the instructor feedbacks for better understanding of the students and the class. Please answer the following questions honestly.

1. What do you like about the course so far?
2. What do you dislike about the course? The material is too hard, lectures are fast, always overtime, too much of theory, few examples, no time for questions, the instructor's explanations and answers are not clear, office hours are not helpful, etc.?
3. What are your suggestions?
