

# GEOMETRY SEMINAR

Department of Mathematics  
California State University Fullerton

Zoom meeting room: 893 4325 5295 Password: 112358

## ABOUT THE SEMINAR

The Geometry Seminar at Cal State Fullerton was established in the Spring semester 2007, and the first speakers were Professors Zhiqin Lu and Ovidiu Munteanu (at that time both from UC Irvine). Since then, the seminar became the meeting place of faculty interested in Topology- and Geometry-related themes, and their students. We value very much the students' participation to our events, which we feel should guide our more motivated students interested to pursue a graduate career, where a good mastery of various topics in Topology and Geometry is welcome.

Many collaborative efforts were born out of the conversations among our participating faculty members. E.g. at the American Mathematical Society's Meeting 1167, which took place on May 1-2, 2021, the Special Session on Differential Geometry and Geometric PDE was organized by Professors Alfonso Agnew, Nicholas Brubaker, Thomas Murphy, Shoo Seto, and Bogdan Suceavă. Such efforts are the expression of our academic environment and our collaborating atmosphere.
