

COURSE SYLLABUS

Higher Mathematics for Engineers and Scientists I

MATH 3350-H01 (CRN 26226)

Instructor Information

Giorgio Bornia, Associate Professor
Office: MATH 225 Office phone: (806) 834-8754
E-mail: giorgio.bornia@ttu.edu
Office hours: W 01:00-03:50pm, or by appointment.
Website: <http://www.math.ttu.edu/~gbornia>

Weekly Meetings

TR 09:30 am - 10:50 am, room Math 012

General Description

This course covers topics in ordinary differential equations. Topics to be covered include: first-order differential equations; modeling with first-order differential equations; higher-order differential equations; modeling with higher-order differential equations; Laplace transform; series solutions of linear equations.

Prerequisite: Math 2450 or consent of department.

Outline

- Introduction to Differential Equations
- First-Order Differential Equations
- Higher-Order Differential Equations
- The Laplace Transform
- Power Series Solutions of Linear Differential Equations

Textbook

Advanced Engineering Mathematics, 5th Edition, by D.G. Zill, W.S. Wright. Chapters 1 - 5.

Expected Student Learning Outcomes

Students will study topics of differential equations, their solutions, and applications to physical sciences and engineering. In particular the students will learn to:

- recognize a differential equation and its solution;
- compute solutions of first order differential equations;
- compute solutions of higher order differential equations;
- use Laplace transforms;
- understand the fundamental properties of power series, and how to use them to solve linear differential equations.

Assessment of Learning Outcomes

Examinations

- Exam #1: **Thursday, February 20**, worth 25% of the final grade
- Exam #2: **Tuesday, April 7**, worth 25% of the final grade
- Final Exam: **Friday, May 8, 7:30 a.m. to 10:00 a.m., room Math 012**, worth 25% of the final grade

The instructor will specify what topics must be studied for each exam. Use of electronic devices in all the exams is not permitted.

Homework

Homework assignments will be regularly given through the WebWork online system at the address:
<https://webwork.math.ttu.edu/webwork2/spr20gborniam3350sH01/>.

Traditional paper assignments may also be given.

Students will be informed via email (on the @ttu.edu address) about the homework. All assignments must be completed before the given deadline. Homework is worth **25%** of the final grade.

Attendance

Attendance is mandatory. Students with up to 4 missed classes for the entire semester will receive an additional bonus of **3%** on the final grade.

Grading Policy

Let g be the grade in percent: $g < 55$ F, $55 \leq g < 66$ D, $66 \leq g < 77$ C, $77 \leq g < 88$ B, $88 \leq g < 98$ A, $g \geq 98$ A+

The grading policy may be subject to slight adjustments depending on the achievements of the students.

Make-ups

There are usually no make-ups for the examinations, except for reasons of illness, stated in writing by a medical doctor, or observance of a religious holiday, or other very reasonable motivations.

Class Policies

If students miss a class, it is their responsibility to find out what they missed (announcements, assignments, notes ...). Also, it is their responsibility to frequently check their e-mail for announcements made by the instructor. Students are strongly encouraged to read each section of the textbook in advance of the lecture. Classes start and end always on time. Students are not allowed to leave the class before the end of the hour without authorization. During class time it is not allowed to text, chat and sleep. All electronic devices must be put in silent mode.

TTU Operating Policies

Americans with Disabilities Act (TTU OP 34.22)

Any student who, because of a disability, may require some special arrangements in order to meet course requirements should contact the instructor as soon as possible to make any necessary arrangements. Students should present appropriate verification from Student Disability Services, during the instructor's office hours. Please note instructors are not allowed to provide classroom accommodations to student until appropriate verification from Student Disability Services has been provided. For additional information, you may contact the Student Disability Services office at 335 West Hall or 806-742-2405.

Absence for observance of a religious holy day (TTU OP 34.19)

1. "Religious holy day" means a holy day observed by a religion whose places of worship are exempt from property taxation under Texas Tax Code 11.20. 2. A student who intends to observe a religious holy day should make that intention known to the instructor prior to the absence. A student who is absent from classes for the observance of a religious holy day shall be allowed to take an examination or complete an assignment scheduled for that day within a reasonable time after the absence. 3. A student who is excused under Section 2 may not be penalized for the absence; however, the instructor may respond appropriately if the student fails to complete the assignment satisfactorily.

Academic Honesty (TTU OP 34.12)

It is the aim of the faculty of Texas Tech University to foster a spirit of complete honesty and high standard of integrity. The attempt of students to present as their own any work not honestly performed is regarded by the faculty and administration as a most serious offense and renders the offenders liable to serious consequences, possibly suspension. "Scholastic dishonesty" includes, but is not limited to, cheating, plagiarism, collusion, falsifying academic records, misrepresenting facts, and any act designed to give unfair academic advantage to the student (such as, but not limited to, submission of essentially the same written assignment for two courses without the prior permission of the instructor) or the attempt to commit such an act.

The grade of "I" (TTU OP 34.12)

The grade of "I" is given only when a student's work is satisfactory but, due to reasons beyond his or her control, cannot be completed. It is not given in lieu of an "F" or "W". The instructor assigning the grade will stipulate in writing at the time the grade is given the conditions under which the "I" may be removed. The assigned work and a change of grade must be recorded within one calendar year from the date of the "I". Failure to do so results in an "F" for that course.
